Dear Friends and Neighbors,

I would like to introduce myself and offer my services as a Realtor® with Prudential Real Estate Professionals. I am a **certified EcoBroker®** with knowledge of energy efficiency; green, sustainable building; and healthy living. With a BS in Environmental Studies and a BA in Classics in addition to real estate schooling, I am well rounded and can bring a lot to your real estate table.

Please call me today for ideas to make your home more energy efficient or for a free, no obligation market analysis to find out how much your home is worth in today's market.

I wish you a lovely summer season and look forward to meeting you!

Cheers,

Julie Palmer
